Right to reimbursements

To benefit from our reimbursements, a waiting period of 6 months applies, beginning on the date of joining. There is no waiting period in case of accident, following the agreement of our Hospitalia Medical Counsellor. There is no waiting period for the newborn if the waiting period of the parents is finished before the birth (+ exceptions).

In case of membership of the Hospitalia, Hospitalia Medium or Hospitalia Plus product after a similar hospitalisation insurance, the waiting period may be waived according to the conditions in the statutes. No reimbursement is granted for a period of hospitalisation that starts during this waiting period.

In case of disease, disorder or state (like pregnancy) existing at the date of affiliation or at the date of product transfer, which leads to an hospitalization, the intervention is limited: exclusion of the room supplements and extra fees in single bedrooms for Hospitalia, Hospitalian Medium and Hospitalia Plus (as far as the waiting period is finished) and for Hospitalia Ambulatory, by refusing the reimbursement of the ambulatory benefits related to this disease, disorder or state.

In case of childbearing within the 9 first months of the membership of the product, the childbearing can be considered as the result of a preexisting state. In this case, the costs of hospitalisation will be borne, except for supplements linked to the stay when the insured person chooses to stay in a private room, provided the general waiting period has ended.

However, this limitation is not applicable if the childbearing happens after 9 months of cumulated membership to a similar mutual insurance and to the Hospitalia insurance.
